¹ For States with federally administered optional supplementation, the number of people receiving payments was estimated from a December 1995, 10-percent sample of persons scheduled to receive payments in January 1996.

² Data on living arrangements not available.

³ Data on eligibility categories by living arrangements not available.

⁴ Data on eligibility categories not available.

⁵ Nevada does not supplement the disabled. In this table, the 50 recipients classified as disabled are eligible for SSI on the basis of their disability. In Nevada, their eligibility for State-supplementation is based either on age or on blindness.

⁶ Of these recipients, 8,188 receive an additional State-administered supplement.

⁷ There are 150 blind adults receiving the basic amount; as well as 52 blind children who are not included in adult care home facilities.

⁸ Includes some recipients in room and board facilities.

⁹ The State provides optional supplementation for couples only.
